

## Permit To Atlantic Trust

The Zoning Board of Appeals has granted a Special Permit for the filling and construction of an on-site sewage disposal system at 79 Atlantic Avenue, property owned in a trust by Wayne Sawchuk, Glen Pratt, and Douglas Purdy.

The proposed joint disposal system, which would serve five home — one existing house and four new houses — is subject to compliance with the requirements of the Conservation Commission, the Board of Health and State Department of Environmental Quality Engineering (DEQE).

The Special Permit is also subject to the execution and recording of A Declaration of Restrictive Covenants which would provide the right of

access and use of the joint system for all lots. It will also provide the terms of liability for maintenance of the sewage disposal system by all of those using the system.

The permit is further subject to the inclusion of adequate means for the accomplishment

of any necessary cleaning of the inverted siphon. The multiple sewage disposal system may be used only to serve the existing dwelling and four new houses to be built and a possible new house as shown on the Plan of Land on Atlantic Avenue.
